

ANGJEL SPASOVSKI

Software Engineer

Skopje, Macedonia | angjel.spasovski@gmail.com | github.com/AngjelSpasovski | linkedin.com/in/angjel-spasovski

PROFESSIONAL SUMMARY

Software Engineer with 10+ years of experience in web application development, frontend engineering, enterprise software products, and reliable user interfaces for complex business workflows. Experienced in long-running product development, software design, maintainability, usability, performance, and production support.

TECHNICAL SKILLS

Languages & Core: JavaScript, TypeScript, HTML5, CSS3, SASS / SCSS, Web Design

Frontend: AngularJS, Angular 2+, Bootstrap, Responsive Design, Forms & Modals

Data & APIs: REST APIs, JSON / XML, Oracle SQL, D3.js, Plotly, DevExpress

Engineering: Software Design, Maintainability, Debugging, Product Maintenance, Performance

Tools: Git / GitHub, npm, Webpack, CLI, Figma

Systems: IT Administration, Scripting, Network Maintenance, Windows Server, CCNA Foundations

PROFESSIONAL EXPERIENCE

Software Engineer | CYBERTEC

Jun 2024 - Present | Hybrid

Continuing development of Opera MES after OPEN DATA was acquired by CYBERTEC, with broader engineering focus across frontend development, software design, system improvements, product maintenance, usability, performance, and reliability.

Skills: Web Engineering, Software Design, TypeScript, Angular, Enterprise Product

Software Engineer | DB Store

2025 - Present | Part-time | Remote

Part-time development and ongoing maintenance of DB Store, including frontend improvements, dashboards, data grids, API integrations, bug fixing, performance, reliability, and production support.

Skills: Angular, TypeScript, Product Maintenance, Firebase, AG Grid

Frontend Developer | OPEN DATA Srl

Jun 2018 - Jun 2024 | Skopje, Macedonia

Worked on Opera MES, building and maintaining web-based user interfaces for complex production workflows, with emphasis on usability, reliability, and long-term maintainability.

Skills: JavaScript, Angular, AG Grid, Plotly.js, D3.js

IT Administrator | Winner - Vienna Insurance Group

Mar 2017 - Jun 2018 | Macedonia

Maintained internal IT infrastructure, network reliability, data collection scripts, web platform operations, and day-to-day technical support for users.

Skills: Networking, IT Support, Scripting, Web Platform

Frontend Developer | Armedia

Jul 2016 - Mar 2017 | Macedonia

Worked on ArkCase, focusing on frontend maintenance, bug fixing, CSS issues, modals, forms, layout consistency, usability, and application stability.

Skills: ArkCase, JavaScript, AngularJS, Forms, CSS

Frontend Developer | Vorteks ED

May 2015 - Apr 2016 | Skopje

Worked on Move One, a transport and relocation management product, contributing to frontend UI development and maintenance with Stylus, jQuery, and Backbone.js.

Skills: Move One, JavaScript, CSS, Stylus, Backbone.js

SELECTED PROJECTS

DB Store | Live project | <https://dbstore.online>

A live web project used as a public example of frontend delivery, product presentation, and practical implementation quality.

Contribution: Built the Angular standalone interface, data grids, charts, API integrations, Firebase delivery, EmailJS contact flow, and PDF reading workflow.

Outcome: A deployed product demonstrator covering the public site, authentication, dashboards, and operational workflows.

Technologies: Angular, TypeScript, Standalone Components, AG Grid, Firebase, REST API

Opera MES | Enterprise product

Manufacturing Execution System used to support and optimize production processes through reliable frontend workflows and long-term product maintenance.

Contribution: Built and maintained production interfaces, reusable UI, grid and chart workflows, and improvements to usability, performance, and reliability.

Outcome: Continued product evolution with an emphasis on stable, maintainable interfaces for complex operational work.

Technologies: JavaScript, TypeScript, Angular, AG Grid, Plotly.js, D3.js

DentCare Macedonia | Live project | <https://dentcare-macedonia.web.app/>

A responsive dental tourism website for patients planning treatment in Macedonia, with multilingual content, consultation flows, travel guidance, and Firebase hosting.

Contribution: Built the Angular standalone component architecture, responsive SCSS and Bootstrap UI, EmailJS inquiry flow, and Firebase deployment.

Outcome: A deployed public website that brings treatment, clinic, travel, and consultation information into one coherent journey.

Technologies: Angular, Standalone Components, SCSS, EmailJS, Firebase, Responsive Design
